Biotechnology Institute Congratulates 2012 BioGENEius Winner On Being Named 2013 White House Science Fair Participant

Chicago – April 22, 2013 – *Today, the 2012 BioGENIUS Challenge winner, Nathan Kondamuri was participated in the White House Science Fair, which celebrates student winners of a broad range of science, technology, engineering and math competitions form across the country. The following statement can be attributed to Amy Finan, president of the Biotechnology Institute, the organization that oversees the BioGENEius Challenge.*

“We congratulated Nathan Kondamuri on his participation on today’s White House Science Fair and applaud President Obama on his commitment to inspiring students to excel in math and science. Through the BioGENEius Challenge, we hope to cultivate a group of young and innovative stewards to address our global challenges in human health, food and the environment using biotechnology. Nathan is a shining example of a student who is doing just that. Through his research Nathan is not only working to solve would world’s challenges, but he is also inspiring students around him to excel in STEM fields. We congratulate Nathan and wish him the best of success.”
